

FLINT & FERN: THE KARMA OF THE CONDOR BOOK REVIEW

I highly recommend this book as a contribution to bring valuable ancient wisdom back to support our world and health.

If you could shape the ideal world, not only for you but for all people and all living things, how would it look? This book is for everyone who feels alien in the fast-moving world we live in today, for 'light workers' and 'light children' and anyone else who is highly-sensitive and dreaming of a world where we connect through harmony and love.

This book pictures a world where these values are normal and where people have increased their sensitivity. It is an adventurous story about a group of young adolescents going through their 'rites of passage', a beautiful quest to let go of their elders' protection to stand in their own true strength.

At the same time, this book gives the reader insight into existing and ancient healing practices from Taoism, Ayurveda and other traditions and the variety of energy work that exists in the world.
